**Subject:** Kudos for Rajeeb, Sasmita and Debi Jr

### Rajeeb,

Thanks a lot for all you have done to guide the GA Product Category Project to completion. Your knowledge on IQP architecture and jobs and processes have been of great help, while removing old transformations that were there in the code for GA. Also you have had great attitude towards this effort and you have been there to advice the other project team members on the right path.

### Sasmita,

Now that we have come to the end of the GA Product Category Project, it is very important to recognize the great work you did ! You have demonstrated a fast learning curve, embracing quickly the IQP design, and how it is related to Bravo and Finance dashboard. I like the way you work, with structure and discipline and great attitude and passion towards the goal. With your deep analysis, you always found better ways to build the solution we were looking for. Definitely your contribution to this project has been a critical key for success.

### Debi Jr,

Thank you so much for all great work you have done. You have been there, always very responsive, always very committed and demonstrating initiative to check what you had to check, to solve what you had to solve. Your knowledge and experience on IQP and feeds to other systems, and your skills in analysis and problem solving have been a great contribution, and have made the path easier. Continue with this great attitude towards work and thanks.

Thanks again to all of you, for your dedication and commitment and for being a great partner!!!  
Continue working this way, keep up to the good work !!!

**Sandra and Franco**
