Subject: RE: Update RE: Metro 2 Reporting Testing Status QA and UAT
Importance: High

Thank you everyone for your patience. I have completed my review of the results from each credit reporting agency. I have advised each credit reporting agency to process the files to production.

A BIG THANK YOU to each one of you for your hard work and dedication on this project. This is an amazing accomplishment for the timeframe that was given. THANK YOU THANK YOU THANK YOU! Please forward this email to any associate that assisted on this project that was not included in this email.

Note: I advise that this project is a temporary solution and should not be considered a final solution for reporting the auto lease portfolio's accounts to the consumer credit reporting agencies. The bank should continue to either update Lease Master or replace Lease Master choosing an option that supports servicing customer accounts and is able to fully support Metro 2 credit reporting.

If there are any questions, do not hesitate to contact me.
