Subject: Debi's Appreciation

Hi Sateesh,

I wanted to recognize all the hard work that Debi had put in the LOB projects led by me as I am moving out from my current role to a new role.

Debi has added value to all the projects he worked on from day 1. Because of his flexible nature and desire to learn new things, he was able to help me and our team on many ad hoc requests apart from his project commitments. He is very good at juggling multiple things at once.

The best thing that I like about him is he never says "NO" and if he has committed to something, he ensures the commitment is fulfilled even if it requires him to work over time.

He has worked on following projects with me and his contribution to all the below projects is very well recognized both internally and externally:

1. ZOOT inbound
2. PLUS
3. NFG_MART – Credit cards
4. FDM Decom – NON CORRE
5. Digital Data Mart

Thanks Sateesh for bringing Debi onboard and Thanks Debi for your hard work and continued support.

Happy New Year to you both!

Thanks,

Neha Banthia, CFA
